I DAG

- Noget om viralitet
- Noget om affekt
- Hvad er memes?
- Memes og smitte
- Memes og fællesskaber

KURSUSKOBLINGER

- Memekultur – memekulturer?
("modkultur"?)
- Forskellige typer af fællesskaber
- Kommunikative prakisser og normer
("mønstre for meningsdannelse")
- Social identitet og selvfremstilling
- Netværksstruktur > viralitet

VIRALER OG MEMER I KULTURELT PERSPEKTIV

Limor Shifman:

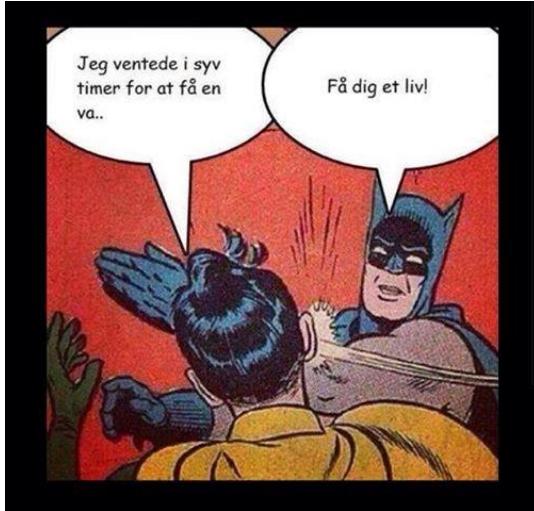

"memetic activities play an important role in constructing shared values in contemporary digital cultures" (p. 61-62)

Global cirkulation af (pop) kulturelle referencer, kampagner, politiske budskaber m.v.

"vernacular creativity" (Jean Burgess 2007 m.fl) –
brugerne selv (fx via 4chan, Reddit og Instagram) som
"cultural producers"

"being serious by not taking oneself seriously"

Andre eksempler?

HVAD ER VIRALITET?

Muliggjort af NETVÆRKSSAMFUNDET

"Virality is a **social information flow process** where many people simultaneously forward a specific information item, over a short period of time, within their social networks, and **where the message spreads beyond their own [social] networks** to different, often distant networks, resulting in a sharp acceleration in the number of people who are exposed to the message" (p. 16)

delingshastighed (speed)

reach (antal netværk nået)

frequency (hyppighed)

viralitet er skalerbart

(DK- US?!)

NAHON & HEMSLEY OM VIRALE BEGIVENHEDER

"A viral information event creates a temporally bound, self-organized, interest network in which membership is based on a interest in the information content or in belonging to the interest network of others" (p. 34)

>> affektiv alliance

HVLKET INDHOLD DELER VI?

Jenkins, Ford og Green (2013)

"Timely", portable, reusable, relevant to many (fx nyhed)

Shifman, Jenkins et al, Abidin og Ask m.fl

nostalgia, humor & parodi, unsolved mystery, "unfinished content" (mulighed for selv at deltage), relatability

+

+

børn (søde/slemme)

+

dyr (kat/hund, fræk/sød) - **POLL**

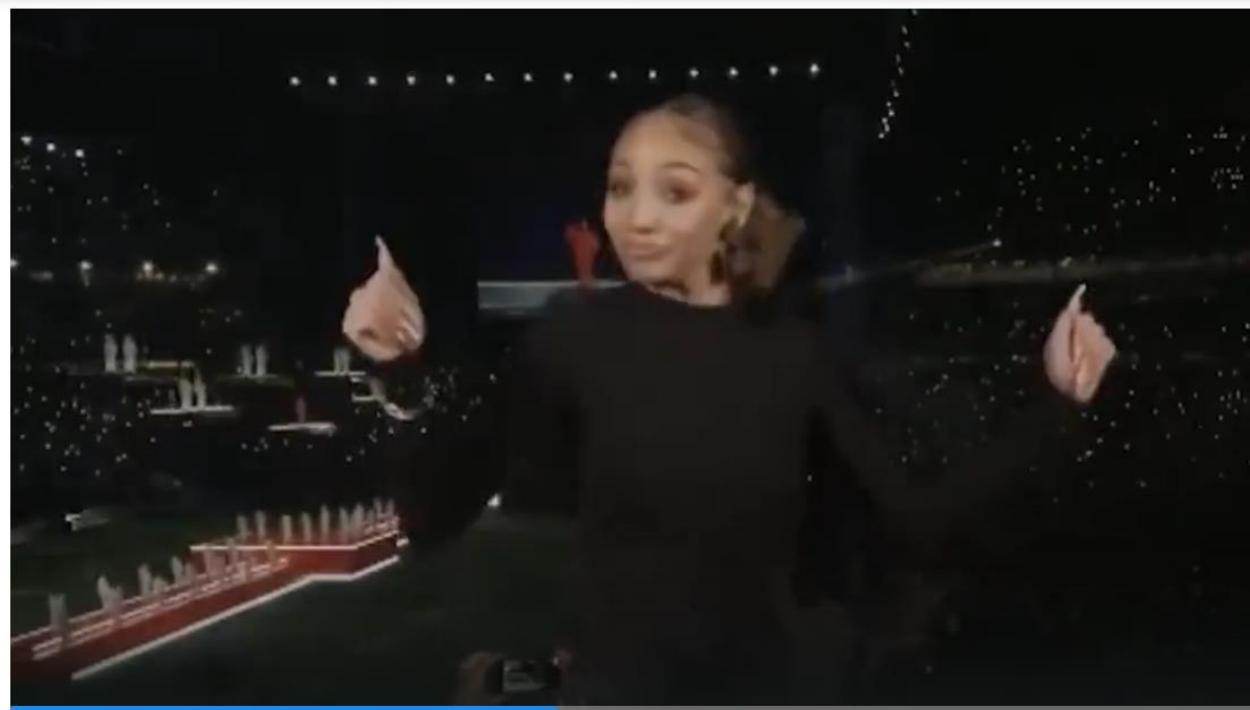

HIGH-EMOTION AROUSAL

	High Arousal	Low Arousal
Positive	Awe Excitement Amusement	Contentment
Negative	Anger Anxiety	Sadness

Berger, J. *Contagious - How to Build Word of Mouth in the Digital Age*,
2013 // samt Berger and Milkman, "What Makes Online Content Viral" in
Journal of Marketing Research 2011

HVORFOR?

HVORFOR DELER VI?

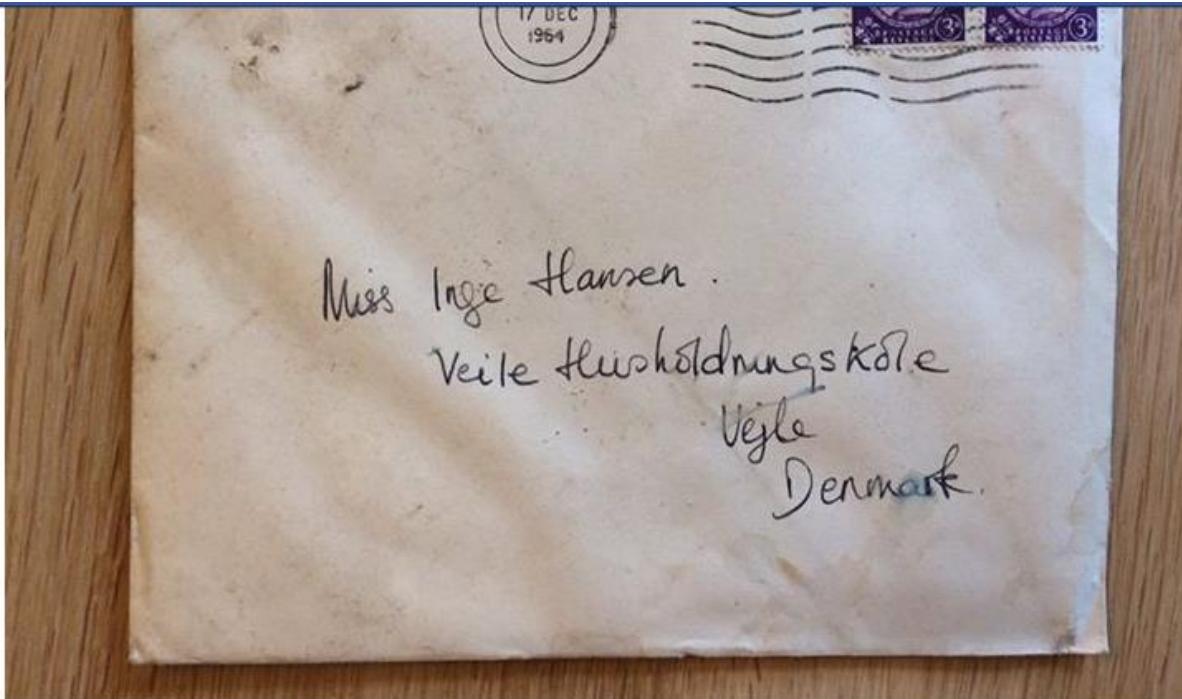

IDENTITET

- For at sige noget om hvem vi er og hvad vi står for ("stance")
- For at opnå "social prestige" i vores netværk

SOCIALITET (FÆLLESSKAB)

- For at styrke sociale relationer ("social ties")
- For at kommentere på aktuel (politisk) sag
- For at tage del i, "fylde benzin på" et fællesskab

AT GØRE EN FORSKEL

Erik Richard Mathiesen

Kender du Inge Hansen? Sådan hed hun som ung pige. Senere blev hun sikkert gift og tog mandens efternavn, som det var skik. Inge gik på Vejle Husholdningsskole i dec. 1964 så hun må være omkring 70 år, hvis hun stadig lever ... I går dukkede dette brev op bag et gammelt møbel på mit kontor. Det er stemplet i Oxford d. 17.12. 1964, så det har været næsten 50 år undervejs. Brevet har aldrig været åbnet. Jeg håber, at det snart kan nå frem til den rigtige modtager. Der er ingen afsender, så jeg kan ikke returnere brevet. Er der nogen derude, som kender Inge?

INFORMATION”CONTAGION”

Et studie af 253 millioner Facebook-brugere

- Venners links:
det er mere sandsynligt og vi er
hurtigere til at dele det samme link
- Jo flere der deler, jo større sandsynlighed
er der også for at vi deler det samme
(influence)
- Nye ”hotte” links når os imidlertid
gennem vores svage bånd (contagion)

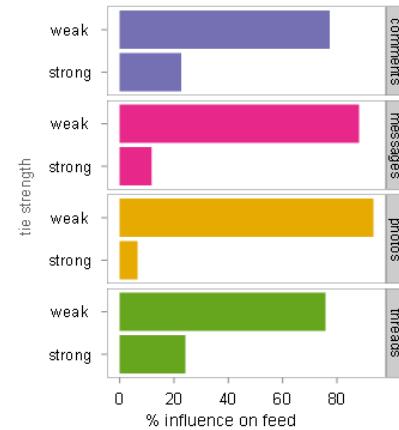

Figure 7: Weak ties are collectively more influential than strong ties. Panels show the percentage of information spread by strong and weak ties for all four measurements of tie strength. Although the probability of influence is significantly higher for those that interact frequently, most contagion occurs along weak ties, which are more abundant.

”The Role of Social Networks in Information Diffusion”, Bakshy et al 2012

REFLEKTIONSØVELSE 3 og 3

- Hvilket indhold (som andre har lavet) har du senest delt med nogen?
(det kan være et meme, men fx også en nyhed, en ny app, link til et nyt spil osv)
- Hvem har du delt det med?
- Og hvorfor?

THE AFFECTIVE TURN

- aktuelt ”mode”-begreb i forskningen (det ikke-sproglige, fænomenologisk, krop, cirkulation of ”intensiteter”, at handle i affekt)
- affektiv stickiness og intensitet også kulturelt ”preconditioned” (2. fase teoretikerne)
- særlig relevans for hvad der sker i brugen af sociale teknologier? (affektiv synkronicitet, ”smitsomhed”)

AFFEKT OG ENGAGEMENT

- følelsesmæssig, umiddelbar investering i et emne – affekt kan knyttes til et ”objekt” eller visse personer (fx bjørne, vaccine, pædofili, typer af mad)
- Negativt eller positivt ladet (lovestorm/sympati vs shitstorm)
- affektive udladninger (individuelle), affektive formationer (incl. alliance)
- intensitet, samtidighed, samstemthed, smitte > cueing af f.eks. ”medieoffentligheder” (Trumpf)
- vigtigheden af naming: ”revolution！”, ”mobning！”
(Paparacharissi: *Affective Publics*, bog)

VIRAL VS MEME

Hemsley and Nahon:

viralt event eller viral topic > memer

viral event = fokus på informationsspredning

memer = fokus på transformation og "derivatives"

Limor Shifman:

Memer er: "units of culture that spread from person to person by copying or imitation"

"whereas the viral comprises a single cultural unit (such as a video, photo, or joke) that propagates in many copies, an Internet meme is always a collection of texts (p. 56)"

et meme er langt fra altid viralt..

MEME KARAKTERISTIKA (SHIFMAN)

Oprindeligt:

en "kulturel ide" der spredes fra menneske til menneske (? Passivt ? Aktivt?)

- 1) Share common characteristics of **content, form and/or stance**
- 2) Are created with awareness of each other
- 3) Are circulated, imitated and transformed via the internet by multiple users

(Shifman 2013 – dagens tekst + Shifman 2014: "The Cultural Logic of Photo-Based Meme Genres" i *Journal of Visual Culture*)

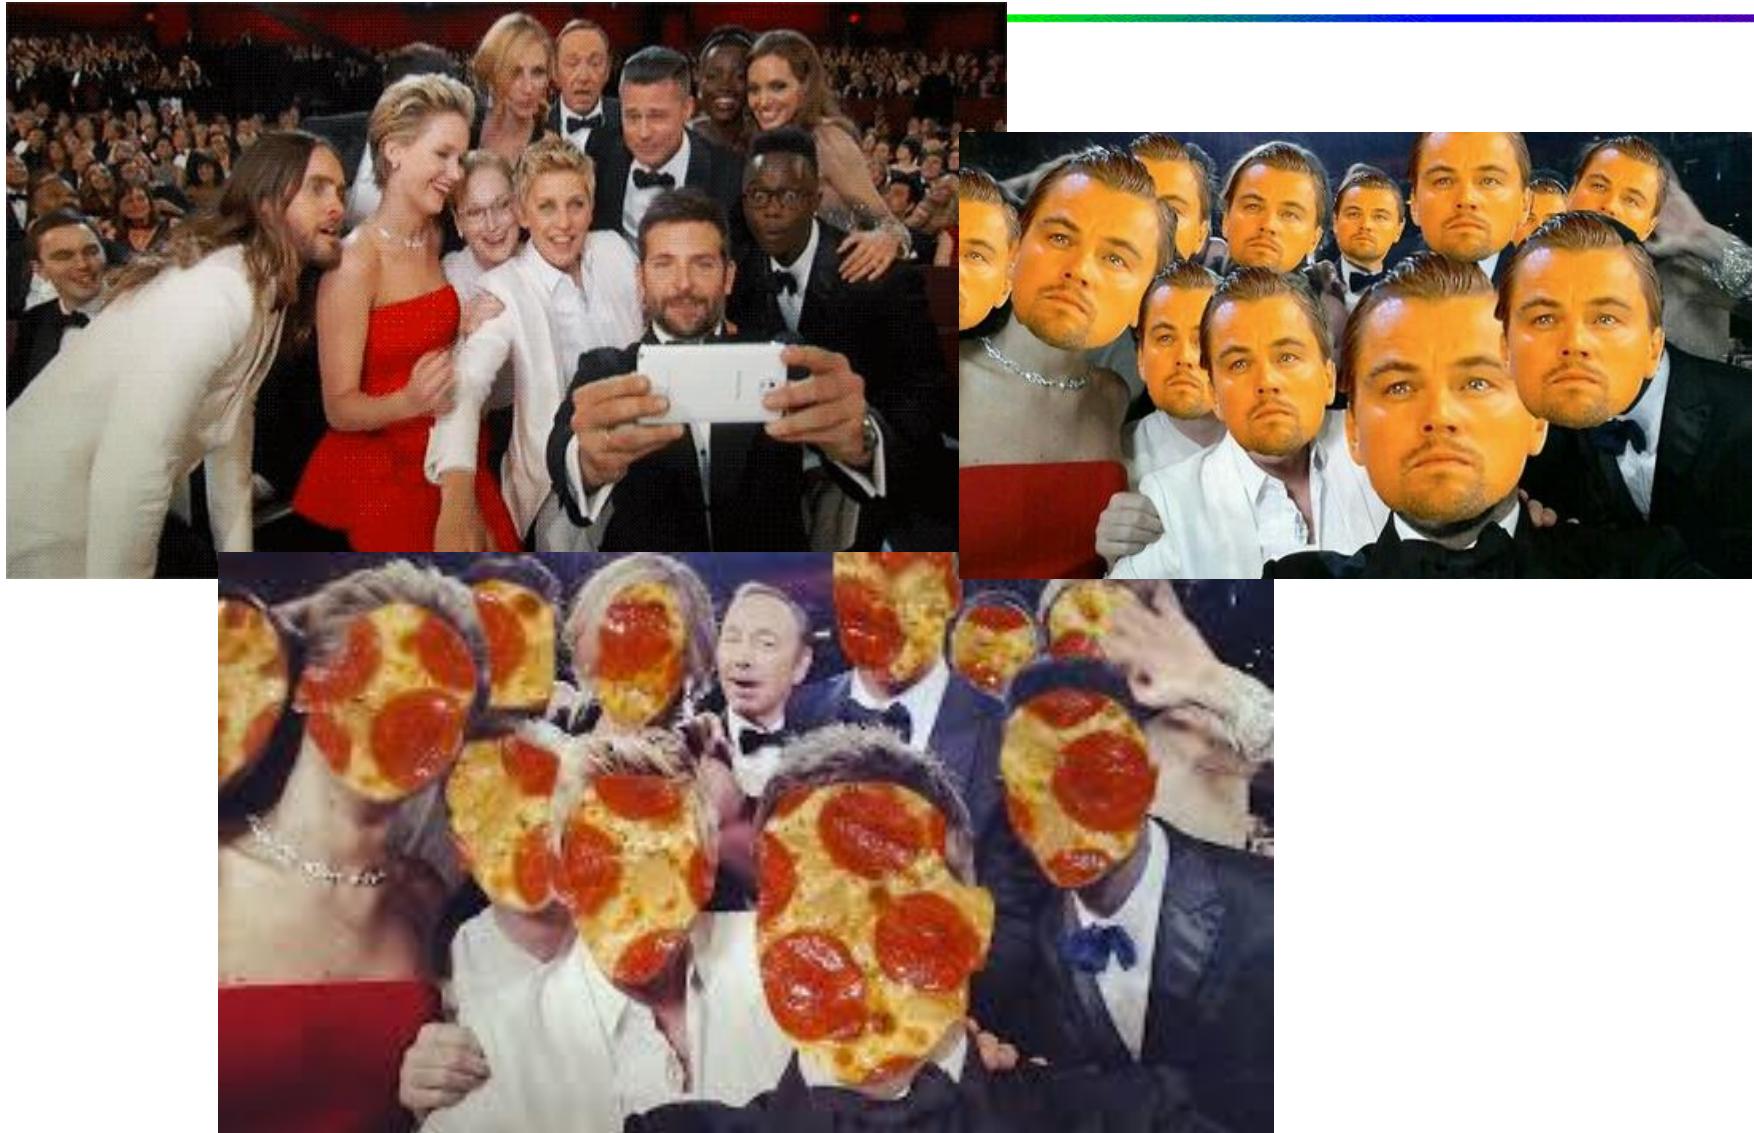

VIRAL VS MEMER (SKALA)

Table 1 Virals, founder-based, and egalitarian memes.

	Viral	Founder-based meme	Egalitarian meme
Number of versions	One*	Many	Many
Distribution of popularity	Millions of viewers of initial video	One (often viral) clip/photo that initiated the meme is by far the most popular	Popularity spreads quite evenly among numerous versions
Focus of derivatives		People relate to a specific photo or video	People relate to a certain formula
User involvement	Meta- comments	Modifying the text	Modifying the text
Examples	Evian Roller Babies	"Leave Britney Alone"	LOLCats

*When a viral generates many derivatives it can also be described as memetic.

INTERTEKSTUALITET

- begreb introduceret teoretisk i nyere tid af Julie Kristeva
- når meningen i en ”tekst” tager farve / skabes af en eller flere tekster udenfor teksten selv (fx citat, pastiche, parodi)
- ”heteroglossia” (Bachtin)
- horisontal, vertikal (John Fiske)
- manifest vs. skjult (Fairclough)
- reference, opposition, assimilation

HORISONTAL INTERTEXTUALITY

John Fiske introducerer begreberne i relation til tv i bogen *Television Culture* i 1987.

“The theory of intertextuality proposes that any one text is necessarily read in relationship to others and that a range of textual knowledges is brought to bear upon it.

...There is no need for readers to be familiar with specific or the same texts to read intertextually “ (s.108)

Horisontal intertextualitet:

- reference til lignende tekster: genre, karakterer osv.

VERTICAL INTERTEXTUALITY

Vertikal intertekstualitet:
Tekster, der refererer til andre tekster (en bog til en film), en kritik af en bog osv)

Sekondær og tertiære tekster.

TEMPLABILITY

A screenshot of the imgflip.com Scumbag S Generator meme creator interface. It shows the original photo of a man in a plaid cap and the generated meme with text overlays. The interface includes options for "TOP TEXT" and "BOTTOM TEXT" with color and font size settings, a "More Options" dropdown, a "Pro-tip" message, a "Private" checkbox, and "Generate Meme" and "Reset" buttons.

"Scumbag Steve is an image macro series featuring a kid with a sideways fitted cap standing in a hallway. The overlaid text generally centers around unethical behavior regarding drugs, partying, and other hedonistic behaviors." (Know Your Meme – website)

"Templability lies at the heart of online memes and especially crisis memes. **The memetic process is a product of the human capability to separate ideas into two levels—content and structure—and then contextually manipulate that relationship. Templating is the practical, methodical, and material process by which this contextual manipulation is expressed.**"

(Sean Rinkel, 2013: 3)

TORSDAG AFTEN

The image consists of three vertical screenshots from a mobile application, likely Twitter or a similar platform, illustrating the use of the '#covfefe' hashtag.

Screenshot 1 (Left): Shows the search results for '#covfefe'. The top post is by Nikolai Orgland (@NikolaiOrgland) with the caption 'Just had to express my feelings. #covfefe' and an image of Donald Trump with devil horns. Below it is a post by Svend Nielsen (@SNDLNS) with the caption 'and for things like that I just like him even more! #goMusk #goHard #COVFEFE' and a reply from Elon Musk (@elonmusk) stating 'Am departing presidential councils. Climate change is real. Leaving Paris is not good for America or the world.' At the bottom is a post by Nickie Nittoli (@NickieNittoli) with the caption 'Do Trump & his supporters realize you can't make America "great again" by being ignorant & globally alienated...? #ActOnClimate #covfefe' and an image of a young girl in a pink hoodie.

Screenshot 2 (Middle): Shows a single tweet by user 'SENESTE' with the text 'Clean air, It was nice while it lasted' overlaid on a blue sky background. The tweet has received 5 likes.

Screenshot 3 (Right): Shows the search results for '#covfefe' on a different device. The top result is '#covfefe' with 42,296 posts. Other visible hashtags include '#covfegate' (760 posts), '#covfetable' (74 posts), '#covfed' (165 posts), and '#covfememe' (325 posts).
